PROFILE

Passionate Full Stack Developer skilled in building scalable, high-performance web applications using modern technologies. Experienced in creating user-friendly interfaces, reliable APIs, and cloud-ready solutions with clean architecture. Eager to learn, innovate, and contribute to impactful tech projects.

PROFESSIONAL EXPERIENCE

Backend Development Intern, 03/2024 – 05/2024 | Bangalore
Kaagaz Private Limited – Bangalore, India

- Developed backend services with Java and Spring Boot.
- Created RESTful APIs or managed MongoDB databases.
- Used GitLab for version control.

EDUCATION

Full Stack Web Development, *Masai School, India* 03/2025 – 11/2025 | Bangalore

Bachelor of Technology in Computer Science, *RTU, India* 10/2021 – 10/2025 | Rajasthan

SKILLS

Technical Skills

Data Structures and Algorithms, C, C++, HTML, CSS, JavaScript, Rest APIs, Spring Boot, mongoDB, React, node.js, MVC, Ajax, Tailwind CSS, Vite, AXIOS, Firebase, TypeScript, Google Calendar APIs.

Tools

GitHub, Postman, Netlify, IntelliJ, VSCode, Vercel

Soft Skills

Adaptability, Attention to Detail, Communication, Problem Solving, Time Management

Cloud Technologies

Google Cloud (intermediate).

PROJECTS

Advanced Patient-Doctor Scheduling System 🔗

- Developed a backend system to optimize appointment management and synchronize with doctors' calendars.
- Integrated with health records and implemented personalized reminders, analytics, and reporting.
- Secured APIs with JWT authentication and encrypted sensitive data using Bcrypt.

Tech Used: JavaScript, Node.js, Express, MongoDB, JWT, Google APIs, Bcrypt, Nodemailer. **Github Link** 🔗

FitnessBuddy App 🔗

- Developed a web application to connect users with fitness partners sharing similar goals.
- Implemented workout tracking and progress monitoring to help users stay motivated.

Tech Used - JavaScript, HTML, CSS, Firebase Authentication. **Github Link** 🔗

Dynamic Travel Recommendation Engine live 🔗

- Built a travel recommendation system to suggest destinations based on user preferences and history.
- Developed user profiles, reviews, itineraries, destination comparisons, and interactive maps.
- Implemented frontend with React and integrated Firebase for real-time data storage and user authentication.

Tech Used - React, Firebase Auth, REST APIs, Mapbox/Leaflet. **Github Link** 🔗
